

Tournament conditions – BIZJET Pro-Am – Monday 24th of June

Format – Tour Scramble

The Pro-Am will be a stroke play competition played under the « Modified Scramble » format.

- It will consist of 30 teams of 1 professional and 3 amateurs with the NET AGGREGATE TEAM SCORE IN RELATION TO PAR counting at each hole (i.e. ALL 4 scores in the team can count).
- Each player however will have « par as their friend » (i.e. The worst score any player can have on a hole is a net par so to contribute to the team score a player must score a net birdie or better).
- Total scoring will be in relation to par. (i.e. 3 net birdies and one net bogey on a hole = -3 (3 under) as the team score).
- The team with the lowest net aggregate score in relation to par will win.

The « **Modified Scramble** » format is similar to a Texas scramble :

- The professional shall always play his own ball.
- The best tee shot will be selected, then all amateurs shall play their own ball from here.
- After the second shots, (this could be a putt on a par 3), each player continues and completes the hole with his own ball.

** NB. In the event of a hole-in-one, only the player who records the hole-in-one can return this score for the hole and the **next best** tee shot of his/her team will be selected as the tee shot from where the remaining team members will play their second shots. (If the selected tee shot is **on the putting green** all players to **place** their ball within **one scorecard's** length of the position of the selected tee shot, not nearer the hole. Anywhere else on the course, all players to place their ball within one club's length of the position of the selected tee shot, not nearer the hole). The amateurs' handicap is limited to 24. Amateurs will receive a full handicap allowance up to a maximum of 18 strokes for male amateurs and 24 strokes for female amateurs. As soon as a player cannot contribute with a net birdie or better, he/she should pick up.
